

## Safety, Health, Environment and Quality (SHEQ)

### Mission Statement

LBC is committed to manage Safety, Health, Environmental and Quality matters as an integral part of our business by using integrated management systems and by applying the following principles consistently across the LBC Group.

#### **Compliance**

We will fully comply with governmental, federal, state or province and municipal laws applicable in the jurisdictions in which we operate.

#### **Prevention**

We will promote a culture of proactive risk assessment, control and reduction and will strive to minimize risk and protect our employees, contractors, subcontractors, visitors, customers, the public and the environment by implementing appropriate technologies, operational procedures and training programs.

#### **Communication**

We will communicate our strong commitment to SHEQ to our employees, contractors, suppliers and customers.

#### **Continuous improvement**

We will strive for maximum customer satisfaction and continuously seek opportunities to improve our performance and will monitor our progress through standardized Key Performance Indicators (KPI's) and regular audits, inspections and risk assessments.
